ABOUT ME

I am a student at Technical Secondary School No. 8 in Sosnowiec, specializing in programming. I started learning programming even before school, as it has been a hobby of mine for years. I am passionate about creating websites, with experience in both frontend and backend development, though I have a particular interest in backend work. I am continually building my skills in backend development to become more proficient and stay updated with the latest technologies.

WORK EXPERIENCE

[29/04/2024 – 29/05/2024]
